ANWITA MEHTA

Strategy & Business Operations | Research & Market Intelligence | Product | Entrepreneurship

Gurugram, Haryana | +91 93115 87775 | toanwitamehta@gmail.com | linkedin.com/in/anwita-mehta

EXPERIENCE

Marketing & Strategy Associate — eedge.ai, Gurugram (Hybrid) | Jul 2021 – Dec 2024

- Built eedge.ai's social media presence from the ground up, growing traction across Instagram, LinkedIn, and other platforms by roughly 65–75% through content and campaign strategy focused on maximizing audience reach.
- Ran A/B tests using Google Analytics and Chrome-based tools to optimize campaign messaging and platform performance, translating results into positioning recommendations.
- Managed end-to-end campaign workflows and cross-functional stakeholder coordination, ensuring on-time delivery across concurrent initiatives.

Founder — Sports Engagement Startup (MVP Stage) | 2025 – Present

- Leading end-to-end MVP development — market research, user validation, wireframing, and iterative prototyping in Figma — with a focus on accessibility and reach so the solution benefits the widest possible user base.
- Own the product's visual identity, UI components, and brand assets end-to-end, treating design and strategy as core growth levers.

Management & Production Intern — BA Convention, Sheraton Grand Bangalore | Aug 2019 – Feb 2020

- Coordinated venue, vendor, and production logistics for large-scale corporate conferences, including post-event documentation and editing.

Teaching & Management Volunteer — Shiksha Prayas (NGO), Gurugram | 2022 – 2024

- Taught core academic subjects to underprivileged students and supported day-to-day center coordination, aligned with UN SDG 4.

SKILLS

Analytics & Growth: Google Analytics, A/B Testing, Social Media Growth Strategy
Strategy & Research: Market Research, Competitor Analysis, Strategic Planning, Product Strategy
Operations & Documentation: Stakeholder Communication, Meeting Minutes (MoMs), Process Documentation, Deadline Management
Product & Tech: Figma (Wireframing & Prototyping), AI/ML Fundamentals, AI-Assisted Workflows
Design Tools: Adobe Photoshop, Adobe Illustrator, Canva
Areas of Interest: Deep-Tech, Defence Technology, AI/ML, Entrepreneurship
Programming Languages: C, C++, Java and OOPs **AI/ML:** Python (AI/ML fundamentals)
Problem Solving: Data Structures & Algorithms (ongoing, Java), Figma courses

PROJECTS

AI for Climate Change Monitoring and Forecasting | Jun 2025 – Jul 2025

- Researched machine learning approaches for climate data analysis and forecasting, studying datasets and modelling methodologies to support data-driven environmental decision-making.

Research Paper — IoT-Based Health Monitoring System with Hybrid Conversational Assistance | Co-Author

- Researched and co-authored a paper on an IoMT-based smart health monitoring system integrating conversational AI to improve remote patient monitoring, accessibility, and engagement, through literature review, system analysis, and framework design.

Comparative Study of LLM-Based vs. Rule-Based Chatbots in Task Completion and Error Handling | Apr 2026 – Jul 2026

- Building a working model comparing LLM-based and rule-based chatbots on task-completion accuracy and error-handling performance.

EDUCATION

B.Tech – Computer Science (Data Science), Amity University, Noida | 2024 – Present

2nd Year · Batch 2024–2028

LEADERSHIP & CAMPUS INVOLVEMENT

- E-Cell Member — NEC 2025, IIT Bombay: Participated in the National Entrepreneurship Challenge, engaging with founders, investors, and YC alumni to stress-test business strategy.
- Technical Team Member — Institution's Innovation Council (IIC), Amity University (Jul 2025–Present): Support cross-team coordination for innovation events and startup showcases.
- Member — GeeksforGeeks Campus Body, Amity University (Nov 2025–Present): Create content and coordinate outreach strategy for hackathons and developer initiatives.
- Core Member — Data Science Club, ASET, Amity University (Oct 2024–Present): Contribute to event strategy and communication materials for club webinars.
- Member — DASP Music Society, Amity University (Nov 2024–Present): Support event branding and promotional coordination for performances.
- Team Lead — GeeksforGeeks Hackathon, Amity University: Led a team through ideation, execution, and presentation of the hackathon project.
- Team Lead — CyberCup 5.0 Hackathon: Led a team through ideation, execution, and presentation of the hackathon project.
